WHOLESALE LIST

Terms and Conditions of Sale

This List Cancels All Previous Quotations

TERMS:

All prices are f.o.b. San Gabriel, Calif., boxing and baling at cost. Packing free on truck and carload shipments.

Note: On each catalog page we list the FREE DELIVERY ZONE BY OUR TRUCKS.

Usual trade terms to nurserymen of established credit, otherwise C.O.D. Terms are, net 60 days. Interest charged on overdue accounts. 5% Discount on cash and carry orders over \$10.00.

CLAIMS:

For any cause claims must be made within ten days of receipt of stock.

GUARANTEE:

We accept all orders subject to crop conditions, and we reserve the right to cancel a portion of the stock, or all thereof, should injury befall our stock from hail, windstorm, frost, other weather conditions, error in count, insect and disease injury, or other natural causes beyond our control. We are careful to keep our varieties true to name and will replace any portion of the stock that may prove otherwise, or refund the price paid for such portions. It is agreed that the original price shall be the maximum damages the purchaser is entitled to.

A FEW OF OUR EXTRA SERVICES OR HELPS TO YOU:

We supply free of charge, fruit tree tags for each tree, giving description of fruit, and ripening dates, to save you time in selling trees.

We deliver all bareroot stock, shade trees, fruit trees, shrubs, grapevines, etc., with roots heavily covered with wet shingletow, so that your order arrives at your nursery, whether in our district or out of state, in prime, moist condition. Our customers greatly appreciate this extra care in delivery of deciduous stock. (We can also supply baled shingletow for your own use.)

OUR LOCATION:

Office, warehouse and yard—5 blocks east of corner of San Gabriel Blvd and Las Tunas Blvd., 200 feet north of Las Tunas on Vista St., San Gabriel.

Growing grounds—(deciduous trees, shrubs, etc.) 10 miles northeast of Escondido, Calif., (San Diego County) off U. S. 395 Highway.

GOLDEN BLUSH P.P.473. Ripens early August. Large yellow golden skin with red blush. A vigorous grower and heavy bearer, that is freestone. MEADOW LARK P.P.528. A yellow fleshed peach ripening in mid June. Well adapted to mild winter areas such as Southern California and parts of Arizona.

REDWING P.P.621. A white fleshed peach, ripening in early July.

ROBIN P.P.529. An early white fleshed peach of honey sweet flavor. An excellent commercial peach that ripens in late May.

SATURN P.P.1485. A fruiting-flowering peach that is better than ever. The large double pink blossoms, set Delicious golden yellow fleshed freestone peaches that ripen in mid July

SPRINGTIME P.P. 1268. A white fleshed semi-freestone that will ripen 10 days earlier than Robin. Earliness and quality make this an ideal commercial peach.

PANAMINT P.P.1100. A big yellow fleshed freestone nectarine, ripening from early to mid July. A heavy bearer almost anywhere in California. PIONEER P.P.787. The firm, juicy, orange-colored, honey-sweet flesh and the dark red skin make this a favorite nectarine. Ripens late July. SILVERLODE P.P.1023. Large size and early ripening make this white fleshed, freestone outstanding. Does well in Southern California and Arizona. Ripens June.

REEVES P.P.693. A wonderful variety for mild winter climates. It should be planted with a pollinizer: Royal is suggested. Ripens early June.

PETTINGILL P.P.1352. Deep red skin with yellow stripes. A good crisp, juicy apple. Ripens late August. Does well in milder winter areas.

BLAZING GOLD P.P.1127. An early, yellow fleshed, freestone with a rich tart acid flavor. Ripens 35 days before Early Elberta. GOLD DUST P.P.1144. A vigorous grower and consistent bearer. The developers believe this to be the finest early yellow fleshed freestone. Ripens 40 days before Elberta and is non acid. FREEDOM P.P.1161. It's large size, rich coloring, freestone characteristic and excellent flavor make it an outstanding nectarine. A good shipping, canning or home use fruit. Ripens late July.

FORTY NINER (NON PATENT) Large size, very round, yellow to high colored red. Yellow fleshed, very firm, one of the best peaches. Ripens ahead of J. H. Hale, in late July.

PLASTIC PLANT TIES

A VINYL PLASTIC FOR TYING OF NURSERY STOCK.

We have used this tape for three years in our Escondido Shade Tree field, and have had the following results--

Our trees are never girdled, as the vinyl tape stretches with the tree.

It is unnecessary to cut and retie each tree, as is the case with twine, raffia or non-stretching materials, thus saving more than the cost of the tape.

We have yet to see this tape rot, and it holds very nicely through one whole season.

Lastly, it ties fast and is cheap in cost. Also, it is attractive in appearance.

PRICE

100 yd. Roll	Each	24 rolls
	.60	.50 each

THIS AMOUNTS TO AN AVERAGE COST

OF 1/10 OF A CENT PER TIE, OR 5-6 FEET PER PENNY
